PROJECT

PET SHOP – USING REACT

- Developed a dynamic and user-friendly e-commerce platform for pet products using React.js.
- Improved user engagement by implementing interactive UI components.

PORTFOLIO

- My portfolio website highlights my skills and projects as a Junior Python Full Stack Developer. **It includes my bio, key skills, projects, and a contact form.**
- The website is clean, **responsive**, and easy to navigate, **reflecting my passion for web development.**
- Responsiveness design** Clean and structured property display with JavaScript and CSS.
- Technologies Used: **HTML5 and CSS3.**

E-COMMERCE – USING DJANGO, PYTHON AND POSTGRESQL

- Built a full-stack e-commerce platform using Django and PostgreSQL, allowing sellers to list products and customers to make purchases.

LIBRARY MANAGEMENT – USING POSTGRESQL

- Designed a Library Management System using PostgreSQL to manage books, members, and transactions. Features include book lending, returns, overdue tracking, and staff management.

CERTIFICATION & COURSE
